

Get Involved

It all starts with your choice to act instead of looking away. You meet a need and that starts a chain reaction. Small victories have a transformational power that maintains the flame of hope in political change. Hope is a belief that tomorrow can be better than today. Unfortunately, it is not magic. Hope requires work. We are passionate, committed and actively working to pursue our mission.

We humbly request that you make the choice to act today! Stand up in unity with us as we continue to provide a voice to the silenced.

FIRST NETWORK

#BeTheirVoice

501(c)3 NonProfit Organization

Our Mission

FIRST-Network (Federal Inmates Requesting Sanctioned Treatment Network) is a nonpartisan advocacy organization formed to be a voice for incarcerated individuals who experience unacceptable treatment and conditions while being housed in federal facilities. We created a platform where those experiencing issues across the BOP can make a report, storing the data in a single repository. Many are afraid to speak up due to fear of retaliation, but this platform allows one to report an issue anonymously. By gathering statistics and documenting issues, it offers the ability to identify trends across the BOP then present the data as a UNITED collective TEAM, producing greater numbers and making a bigger impact.

Transparency

FIRST-Network shares a live report on the homepage of FIRST-NETWORK.ORG, providing transparency and keeping the public informed with what areas of concern are currently being reported across all federal institutions.

#BeTheirVoice

Join the movement and report any concerns regarding your experience with Federal Institutions today! We offer the following methods to submit, keeping your safety and confidentiality in mind.
